

THE PEOPLE'S DECLARATION OF INDEPENDENCE FROM AMERICAN MILITARISM

Saturday 4 July 2026 1.00pm

To announce and explain separation from the U.S. military and their expansionist plotting in other countries.

When, in the course of human events, a greater state, by usurpation of lands of a lesser state for military purposes, imperils the safety and continuance of the lesser state, under the appearance of being a protector, it becomes necessary for the greater to remove its military powers from the other's land to its own territory.

The Laws of Nature and of Nations entitle the people who seek this removal to declare the causes which impel them to make this demand.

We hold these truths to be self-evident, that all people are created equal, that they are endowed with certain inalienable Rights, that among these is the Liberty together to determine the means by which they, as a free nation, would seek to defend themselves.

If another State through its imposing military power usurps this Liberty of choice, then the Independent nation must resist and reject the usurpation; otherwise it would be acquiescing to Tyranny.

The injuries and usurpations all subvert the freedom of the British people. To justify this claim, let facts be submitted to the world.

The Government of the United States has called together and sustained an alliance not democratically answerable or transparently debated in the British Parliament. This Alliance is preparing the barbarous act of being first to use weapons of mass destruction and to continue to develop, test and deploy these weapons.

The United States through this Alliance seeks to impose upon the peoples of the world an increasing levy of taxes to finance the preparation of barbarity. It has placed within the boundaries of the world weapons of such numbers and of such power vastly to exceed any reasonable needs.

There is in fact no need as these barbaric weapons could not be used without creating global destruction and instability. It has conspired with some of the

citizens of the United Kingdom seriously to distort the truth concerning threats supposed to be against the British State and people.

It has kept amongst us, in times of peace, military powers without the consent of the British people. It has, with no agreement from the British people, occupied many parts of our Common Land as places from which to mount defence of its own territory. It has combined with others to render its own military personnel immune from prosecution for crimes committed against our laws.

It has excited fears among our people in an endeavour to gain assent to a savage and merciless rule of warfare, which seeks an undistinguished destruction of all ages, sexes and conditions. It is folly to continue these paths of violence and destruction.

It has thwarted the upholding of Justice in the world by acting as Protector of the current Israeli government whose wrongdoing is a blot on the Earth. By using its might and power in other ancient gatherings to overrule the will of the World community, including those in our own Government who decide foreign policy, it allows and supports the continuing and unfettered use of oppressive power by the current Israeli government against a people whose rights it has violated for over sixty long years.

We do not wish the people of the United States to see in this Declaration any contempt for them. We are confident that the people of the United States acknowledge that what we seek is nothing less than that which their own forbears sought in declaring themselves a free and separate nation. To the people of the United States we offer nothing else but friendship and a recognition of our common dignity as human beings.

We, therefore, the representatives of a more gentle and peaceful persuasion, appealing to the Moral Law and Laws of Nations for the rectitude of our intentions, DO on behalf of the people of our country, solemnly PUBLISH and DECLARE, that this United Kingdom is, and of Right ought to be, free and independent in the choice of how we exercise our Right of Self Defence.

We call upon the Government of the United States to cease from occupation of any part of British land and withdraw its military powers as we call upon all Governments everywhere to cease their occupation and control of any foreign territories. And for support of this Declaration, we, the representatives of a more gentle and peaceful persuasion mutually pledge to each other our lives, our fortunes and our sacred honour.

And, with specific reference to this gathering today, we, the under-mentioned, do solemnly demand the return of the land, and cess at of the use of this land to mount unprovoked and indiscriminate bombing campaigns against citizens of other countries

We are concerned that the American Government continues to overshadow Earth, Sea, Air, Space and now Cyberspace throughout and beyond this magnificent Planet.

We are despairing that the United States government and military continue to threaten and meddle in other countries' affairs especially concerning the lands of Russia, China, Venezuela Iran, Cuba and South America. We wish to uphold the peoples of Diego Garcia who have been removed from their homes and placed in poverty.

We are alarmed and fearful of the immoral and illegal use of the deadly weapons called 'Drones' which are used by persons to assassinate and remove people of innocence; without calling upon the adjudication of the civilized courts to bring those who are plotting to harm others before the wise judges who could decide innocence or guilt.

Here at RAF Fairford today, we are very fearful of the increased deployment of such deadly drones from this base. We also condemn Fairford's use in the illegal bombing of Iran and all the other horrific US-led wars this base has facilitated, including Iraq, Afghanistan and Libya.

We encourage the United States of America and all governments of the world to uphold the keeping of International Laws and Treaties, including the Treaty on the Prohibition of Nuclear Weapons agreed by the United Nations, thus ensuring that the Heavens and every corner of the Earth are free from domination and greed.

We use our intelligence to imagine the consequences of the space around our dear planet Earth and other Celestial bodies being filled with weapons of desperate destruction. We speak from our hearts which beat in terror at the legacy we might leave the children of this world.

Once again, we call upon all American people to imagine our roles reversed and to remember their own ancestors' Declaration of Independence from our ancestors.

Based on and adapted from the original American Declaration of Independence
1776 – we have taken care to follow the original wording and spirit of this
historical document.

Fairford Action.
