

Attached photos of southbound nuclear convoy, A34 Oxford and Abingdon 3.30pm today.

This convoy had travelled from Royal Naval armaments Depot, Coulport, Scotland yesterday to stay overnight in North Yorkshire. It then travelled south today, and passed Kidlington, Oxford, Abingdon and Didcot on the A34 on its journey back to Atomic Weapons Establishment Burghfield near Reading.

It was monitored throughout the journey by nukewatchers. These photos were taken by Oxford CND nukewatchers.

This is the most dangerous traffic on our roads.
