URGENT: Join us in saying No to NATO!

- Cardiff and Newport
- August 30th to September 5th

World leaders will be gathering in Wales in two weeks time for the NATO summit. This nuclear-armed - and very expensive - military alliance continues with its wars and destabilizing expansionary policies as ordinary people throughout the world yearn for peace.

This is your chance to make your feelings known and demonstrate for a nuclear-free, less militarised and more secure Europe. Help us get the message over!

A week of demonstrations and discussions is planned - please join us for some or all of the events.

- [Sunday 31st August: Counter-summit in Cardiff](#)
- [Monday 1st September: Counter-summit in Newport](#)

NHS not Trident: Join the 999 March for the NHS

The NHS is under threat while the government wants to spend £100bn on a new nuclear weapons system.

The 999 March for the NHS, a three week march from the North East of England to London, is underway with rallies all along the route.

We want CND supporters to attend and show your support with our NHS not Trident message!

No Location, No Location, No Location

CND has rejected claims that Trident could be relocated to England in the event of Scottish independence.

A new study acknowledges the very many financial and logistical issues of relocating Trident, but says that the Plymouth area – home to 260,000 people – could house the UK's nuclear weapons fleet.

CND's General Secretary, Kate Hudson, has challenged the report, stating:

'As if having nuclear weapons in Faslane wasn't already unacceptable, now it's being suggested that we stick our nukes next to a population of over a quarter of a million people. It's not just monstrous, but it would cost us billions, people would have to be evicted from their homes and it wouldn't even work effectively.'
