Stop US nukes coming to Lakenheath

CND condemns the return of US nuclear weapons to RAF Lakenheath: we must oppose this extremely dangerous and destabilising development.

The US Department of Defense has added the UK to a list of NATO nuclear weapons storage locations in Europe being upgraded under a multi-million dollar infrastructure programme. It is believed that US nuclear weapons will be coming to RAF Lakenheath, a base in the UK that is owned by the Ministry of Defence but run by the US.

CND has had a strong track record of removing nuclear weapons from Britain as a result of popular protest. In the 1980s, mass mobilisation led to the removal of US cruise missiles. In 2008, sustained protests by CND and local groups led to the removal of US free-fall nuclear bombs from Lakenheath.

Get involved with our campaign to prevent a new generation of nuclear weapons coming to Britain.
