The Nuclear Nightmare: *from Oppenheimer to Lakenheath*

Tom Unterrainer, Chair of CND, will speak at a joint meeting of Salisbury CND and Abingdon Peace Group on Tuesday 19th September 2023 at 8pm via Zoom

Tom (seen below protesting outside USAF Lakenheath in Suffolk) will share CND's outrage that US nukes are soon to be based there again, and discuss what we can all do about it. Please zoom in from wherever you live!

When USA tested the first nuclear weapon in 1945, Oppenheimer feared they would lead to the end of the world. The Bulletin of the Atomic Scientist has recently reset the minute hand on the Doomsday Clock at 90 seconds to midnight.
