We need to make this top-secret base more visible and answerable to the British people. The US's own military publication, 'Vision for 2020' stated the aim of US Space Command as the total domination of Space and its resources. This Rally is part of a global **KEEP SPACE FOR PEACE** week. Already it has been key to satellite direction of wars of resources in the Middle East, Africa and now Europe.

COME TO THE RALLY, tell your friends, contact Nuala on

The main gate of the base where the Rally will take place
is halfway between Croughton Village and the A43,
2 miles north of the M40.

Speeches, open mike, music and limited refreshments
– bring your own if possible.
There will also be an accessible toilet.
